Continual Campus Expansion Fuels Long-Term Partnership

In recent years, Albion's main campus has expanded so that it now includes more than 30 major buildings. Kentwood Office has worked hand in hand with Albion to create an environment that enhances students' learning and interaction. Kentwood

Office Furniture has been a constant partner throughout these changes. KOF has furnished various spaces around the ever-expanding campus over the past twenty years, including: lobbies, common areas, classrooms and auditoriums.
