- Izzy storage

## Marketing Department Becomes Best Dressed on Campus

LCC's Marketing Department wanted to "wow" their clients when they came to visit and their current furniture didn't fit the bill. Kentwood suggested a floor to ceiling option which gives the space a very modern look with a combination of

glass, steel and laminate. The remaining furnishings build off and complete this modern look. The end result gives them the "wow" effect they were hoping for. The Marketing Department is now described as the best dressed on campus.
