- National Eloquence

Michigan Veterinary Specialists Expand to Grand Rapids

Considered among the nation’s premier veterinary specialty and emergency health care centers, Michigan Veterinary Specialists delivers comprehensive veterinary emergency and specialty care 24-hours a day, seven days a week. MVS originated in Southfield, Michigan, added a pet hospital in Auburn Hills, Michigan, and was ready to expand into Grand Rapids, Michigan. They turned to Kentwood Office Furniture to help them furnish a space that

would be both beautiful and comfortable for the animals and their owners. For the large waiting areas, Kentwood suggested National Eloquence, which would provide a warm and inviting look while providing this high traffic area the durability and strength it required. MVS now has a new space that allows them to focus on providing extraordinary, loving care to each and every pet that visits.
