- Global Evolve Stations
- OTG Seating
- National Waveworks Casegoods
- OTG Casegoods
- Global Citi Lounge
- National Clever Conference

Design Services:

- Set the Page, Carrie Roeder

Linamar Expands into Beautiful, Cohesive New Space

Linamar was bursting at the seams of their current space, and determined it was time to expand onto an additional floor of their building. They invited several dealers to bid the project, as they were no longer happy with their current supplier. Kentwood previously furnished their Livonia, MI location. In addition to competitive pricing, Kentwood offered to provide professional, complimentary, all-

inclusive design services to ensure that the new space was coordinated from top to bottom. Kentwood assisted the customer with several visits to the Global Showroom to give employees input on the product selection for their space. All delivery and installation services were scheduled to meet Linamar’s time restrictions. The result is a beautiful, cohesive new space for Linamar.
