Medbio Finds Product Mix a Perfect Fit

Medbio's continued company growth led them to acquire a new, larger space. They needed to furnish a beautiful space without breaking the bank. Kentwood Office Furniture had outfitted several spaces for them in the past and was ready to assist. Kentwood Office suggested a mix of new and

remanufactured products to meet the customer's goals. Remanufactured Herman Miller workstations provided huge savings for Medbio. Medbio's new workspace is beautiful, functional and cost-effective - the perfect combination for a growing business!
