Project Scope: 8,000 sq ft

Application:

- Nurse Area

Products:

- Global Divide
- Global Azeo Seating
- Remanufactured Herman Miller AO2

Creative Furniture Solution for OAD Orthopaedics

OAD needed a creative way to add more desk space to a nurse area that was already bursting at the seams. Kentwood started by adding Global Divide between existing stations to increase privacy.

Kentwood's plant helped engineer a slide out which created an additional worksurface for each station which could be stowed when not in use. This outside the box solution fit the bill.
