

PROJECT CASE STUDY

Client

Cedar Crest Dairy

Location

Hudsonville, Michigan

Client Need

As Cedar Crest Dairy prepared for a major expansion into a nearby brownfield site, they needed to transform an existing warehouse pole building into a professional, functional office to support their growing team and operations. With distribution reach expanding and new job creation on the horizon, Cedar Crest required a partner who could provide thoughtful design, reliable furnishings, and a smooth process from start to finish.

Key Outcomes

- Successfully converted a warehouse space into a cohesive, modern office environment.
- Created a workspace that supports Cedar Crest's evolving team and expanded service footprint.
- Helped lay the foundation for future growth.

“It was exciting to be part of a project that not only supported Cedar Crest Dairy's business growth, but also contributed to the transformation of a unique site.”

Our Solution

- Provided a thoughtfully curated mix of high-performing products, including ergonomic height-adjustable workstations, monitor arms, private office solutions, and versatile seating and tables.
- Integrated our internally manufactured EKOS line to offer flexible, durable, and cost-effective workspace solutions.
- Created cohesive environments that support focus, collaboration, and comfort across a variety of work settings.
- Delivered a full-service experience—from space planning and product selection to installation—through our experienced and responsive team.
- Balanced functionality, aesthetics, and budget to meet the client's current needs and support future growth.
