

## signature: laminates

**NOTE:** All standard laminates are included in the signature program. These are designated with a -43 or -58 suffix for Formica and a -60 suffix for Wilsonart.

**Solid Colors** Formica® Brand Laminate offers a palette of timeless hues—earthy shades inspired by the natural world, sophisticated colors that echo the mosaic of the modern landscape. Choose from quiet neutrals, fresh pastels and deep, dusky tones carefully coordinated to allow you to layer tone upon tone or to play color against Patterns and Woodgrains.

**COLORES SÓLIDOS**

El laminado marca Formica® ofrece una paleta de matices atemporales—tonalidades de tierra inspiradas en el mundo natural, colores sofisticados que reproducen el mosaico del paisaje moderno. Elija entre los tonos neutros tranquilos, los pasteles frescos y los oscuros, cuidadosamente combinados para permitirle colocar tono sobre tono o contrastar el color con diseños e imitaciones madera.

**COULEURS UNIES**

Les stratifiés de marque Formica® offrent une palette de couleurs intemporelles—des tons du terroir inspirés par le monde naturel, des couleurs sophistiquées qui reflètent la mosaïque de l'environnement moderne. Choisissez parmi des tons neutres subtiles, des pastels frais, des tons sombres soigneusement coordonnés pour vous permettre d'harmoniser ton sur ton ou de faire ressortir les couleurs contre Motifs et Grains de bois.

The **NEW** colors in the 2013 collection were developed with a 'Color Box' concept where Solid Colors coordinate with Patterns and together harmonize with Woodgrains. Patterns and Solid Colors that have the same color names are Color Box Coordinates and bring new depth to the High Pressure Laminate (HPL) offering.

Los **NOUEVOS** colores de la colección 2013 fueron desarrollados bajo el concepto "Color Box" donde los colores sólidos coordinan con aquellos diseños de la colección Patterns y juntos logran una armonía con las maderas. Los diseños Patterns y Sólidos que tienen el mismo nombre pertenecen al concepto Color Box Coordinates y aportan una mayor profundidad a la oferta de Laminados de Alta Presión (HPL)

Les **NOUVELLES** couleurs de la collection 2013 ont été développées avec un concept de 'Boîtes de Couleurs' afin d'agencer les couleurs unies (Solids) avec les motifs (Patterns) qui ensemble, s'harmonisent bien avec les grains de bois (Woodgrains). Les motifs et couleurs unies qui portent le même nom représentent des Boîtes de Couleurs qui s'agencent et qui apportent une nouvelle dimension à l'offre de stratifié haute pression (SHP).

\* Standard finish is -58 Matte unless otherwise noted.

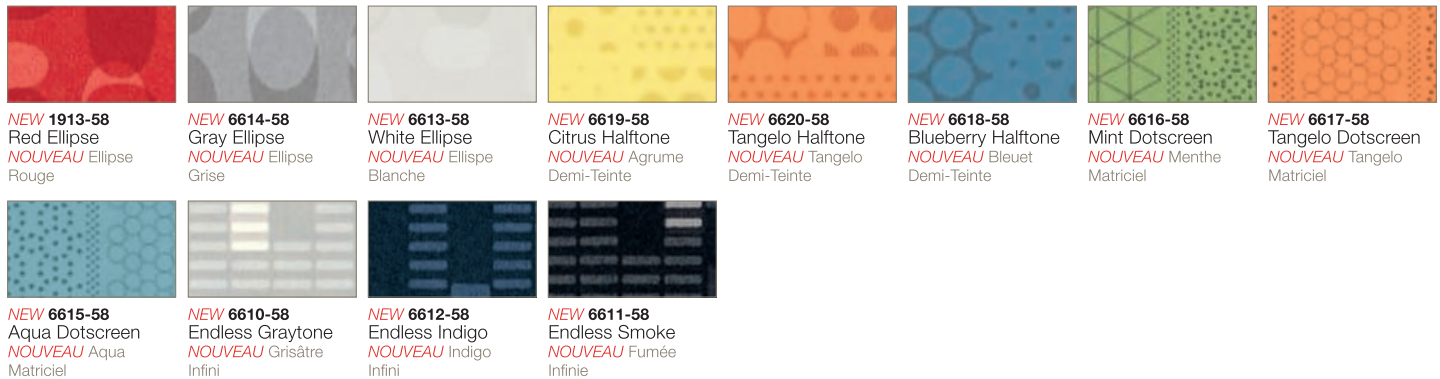

\*El acabado estándar es -58 mate a menos que se especifique de otro modo. \*Le fini standard est le fini -58 Mat, sauf si indication contraire.

# WILSONART® CONTRACT LAMINATE

Designed specifically to meet the decor needs of commercial projects, this collection features colorways, finishes, and patterns that coordinate easily with the other materials you specify. All Premium Laminate designs also utilize AEON™ Enhanced Performance technology, which has been proven to dramatically outperform traditional laminate for wear and scuff resistance. And this year, we introduce our new Soft Grain, a dense, woodgrain structure that is low gloss and soft to the touch. Subtle highlights of reflectivity randomly occur within the embossed grains, creating a sophisticated raw wood look. The collection also boasts two celebrated textures: FineGrain, with the realistic feel of polished wood and Linearity, a finely striated texture that looks as good on metals as it does on woods. To confirm pattern availability and size/type/finish options, please go to [wilsonartcontract.com](http://wilsonartcontract.com).

# WILSONART® HOME COLLECTION

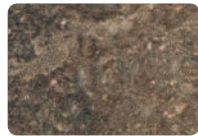

Inspired by today's popular granite, marble and quartz looks, these designs are richly dimensional, realistically textured and intrinsically practical. And like all Wilsonart Laminates, they meet or exceed the industry standards for both residential and commercial use.
